

An aerial photograph of a large container ship docked at a port. The ship is heavily loaded with colorful shipping containers. Several tugboats are positioned around the ship, assisting with its movement. In the background, there are port cranes and other industrial structures. The water is dark, and the sky is overcast. The image is framed by a blue and black curved border at the bottom.

MARINE

GALAXY

TIANJIN GALAXY VALVE CO.,LTD

WHERE

TIANJIN GALAXY VALVE CO.,LTD established in 2003 in TIANJIN, CHINA, has now become an outstanding manufacturer devoted to providing innovative and reliable system solutions in diversified markets, like Water Utilities, Building Services, Firefighting, Marine, etc. With our customized design, larger than 25-acre production facility, more than 600 employees, we are ready to take part in global cooperation and competition in a larger scale and deeper extent.

OUR MISSION

"Quality first, Brand Goes to Glory", with our dedicated job and constantly improvement, we hope to become your first and most reliable choice. At the meantime, it would be more than glory if we can make your job more energy-saving and make the world a bit better.

R&D

Our engineering team is highly active in valve design and production. We've also set a learning center specialized in offering comprehensive and continuous classes led by experienced constructors. With these endeavors, we are able to deliver the most forward-thinking and customer-oriented solutions to the markets.

CERTIFICATION

We've obtained ISO, CE, LR, VDA certificates for our factory including foundry, WRAS, NSF, Kitemark certificates for potable water products, FM, UL, CCC certificates for firefighting products, BV, ABS, TUV, DNV, GL, TS certificates for marine products.

QUALITY CONTROL

We obtained the ISO9001, ISO14001, ISO45001 and other system certifications, and finished the VDA6.3 system process review in 2019. We set a complete and efficient organization to handle whole supply chain quality control, to ensure every process has been well-tested. We have the most advanced and sufficient testing machines for comprehensive, environmental, mechanics, chemical researches and hundreds of regular testing machines for quality ensurance and product development.

KEY PRODUCT

Concentric Vulcanized Butterfly Valve

Ballast Water System

Desulfurization System

Valve Remote Control System

Tank Gauging System

Bilge Water System

Product Feature

Concentric vulcanized butterfly valve complies with GBT3036-2017, has gained CCS, ABS, BV, DNV, LR approvals. The valve adopts a scientific design with large flow rate and low pressure loss, and has low operating torque, which effectively reduces the cost of actuator selection. The valve has passed the sulfur dioxide corrosion test and salt spray test, and has a long service life and stable performance.

- Compact design of valve body, suitable for narrow space
- Low torque, long life performance
- Vulcanized valve seat design, seawater corrosion resistance, tensile resistance
- High strength stainless steel valve shaft
- High performance pneumatic actuator, optional positioner, limit switch, solenoid valve, filter pressure reducing valve are available for option.
- Valve body epoxy paint above 175 microns, better corrosion resistance
- Widen the sealing width of the structural surface seat to reduce the risk of installation leakage
- The upper and lower packing structure is sealed to prevent leakage
- Side flanges are available in multiple standards

Technical Specification	
Item	Specification
Design Standard	CB/T4480-2017
Type	BS Type
Working Pressure	0.6/1/1.6/2.5/4 Mpa
Dimensions	DN15-DN50
Suitable Media	Water,Oil&Gas

Material Specification		
Part	Material	Specification
Body	Stainless Steel/ Copper	CF3/CF8/CF3M/CF8M
Ball	Stainless Steel/ Copper	CF3/CF8/CF3M/CF8M
Shaft	Stainless Steel/ Copper	06cr19Ni10/022Cr19Ni10/ 06Cr17Ni12Mo2/ 022Cr17Ni12Mo2
Seal Ring	PTFE	-
